Rony Ascencio

Python Developer / Digital Compositor / Nuke TD
Montreal, Quebec, Canada

Summary

I am a Python Developer and Digital Compositor with 3+ years of
experience bridging technology and creativity in the VFX industry. At
Framestore, I contribute to commercials, short films, TV series, and
feature films by crafting cutting-edge visuals and developing tools
that streamline workflows.

Core Skills:
Python Development: Scripting for automation, pipeline optimization,
and GUI creation (PySide/PyQt), version control (Git).
VFX & Compositing: Expertise in Nuke for CGI integration, keying,
2D/3D tracking, rotoscoping, and multi-pass compositing. Skilled in
camera projections, cleanup.
3D & Rendering: Maya, Katana(learning), GafferHQ(Learning),
Substance Painter, and Renderman look development, and
rendering.
Highlights:
Developed Python tools, nuke custom gizmos and tools, boosting
efficiency and reducing errors.
Delivered high-quality VFX for award-winning projects.

I am passionate about blending creativity with technology to solve
complex challenges and deliver innovative solutions. Seeking
opportunities where I can expand my impact as a Python Developer
while leveraging my VFX expertise.
